

PRODUCT FACT SHEET

What is NITRO MAX?

NITRO MAX (ATP) is a nucleoside triphosphate as well as a synergistic blend of peptides and nutrients in cells as a coenzyme often called the “molecular unit of currency” of intracellular energy transfer. ATP transports chemical energy within cells for metabolism, energy, speed, vasodilation and smooth muscle flow.

HOW DOES IT WORK?

NITRO MAX creates energy improves endurance and speed, it also dilates the arteries to increase blood flow and oxygen.

WHY USE?

In addition, NITRO-MAX contains a synergistic blend of other powerful nutrients specifically formulated to help support the elevated needs of high performing Horses and Camels without stimulants or side effects. Because of this, many Horses and Camels use this NITRO-MAX as their pre race. This is a serious product for the serious competitor, NITRO-MAX is for the elite competitor striving for the winning edge.

INGREDIENTS

Adenosine Triphosphate Disodium and a patented synergistic blend of peptides and nutrients.

TREATMENT AND DOSAGE

Horses treat 20ml IV 3-5 hours before competition.

Camels treat 20ml IV 3 days before and again 30 hours before race.

SIZE

NITRO-MAX comes in a 100ml sterile vial.

STORAGE:

store below 25 degrees keep out of direct sunlight, do not freeze. Do not use if seal is broken, keep out of children's reach.
