

PRODUCT FACT SHEET

WHAT IS CARDIO MAX?

Cardio Max is a unique complex solution with an active ingredient Ginkgo Biloba and GRF selected Peptide sequence, also known as the maidenhair tree. The plant has a number of therapeutic properties and contains high levels of flavonoids and terpenoids, these are antioxidants that provide protection against oxidative cell damage from harmful free radicals.

HOW DOES IT WORK?

CRADIO MAX is essentially composed of selected aminos (GRF) and flavonoids (which are considered to be powerful antioxidants that slow down the aging of cells) but also Ginkgolides and Bilobalides, whose role is to prevent the formation of blood clots, while at the same time improving venous circulation. Ginkgolides and Bilobalides also play a powerful role in improving blood circulation.

WHY USE?

CARDIO MAX is clinically proven to protect the metabolism and the healthy functioning of the animal's body and organs, also supports and improves arterial and venous circulation and therefore provides better blood flow. It slows down the aging of cells and improves the blood circulation making the brain and body much more alert, as well as more able to respond to the different needs of the horse or camel in different situations which is key in high performance racing conditions.

SIZE AND DOSAGE:

5 x 5ml vials per box. Put up to 3-5 vials into 1 litre of saline solution 3-4 days before competition.

INGREDIENTS:

Complex solution with active ingredient Ginkgo Biloba and GRP selected Peptide sequence.

STORAGE:

CARDIO MAX should be stored below 25 degrees protect from direct sunlight.
